### Teaching

Lead instructor for the course Introduction to Separation Processes (ChE 350)

USC, Spring 2024

Invited instructor for the course Chemical Product Design (ChE 413)

EPFL, Fall 2020

### Mentoring

I have trained, co-supervised and mentored **15 students (nine PhD, four MS, and two interns) and one postdoctoral researcher** to conduct state-of-the-art scientific research on different membrane-related projects. The students and the postdoc I have mentored consistently publish as first authors in top-tier journals such as *Nature Materials*, *Science Advances*, *Proc. Natl. Acad. Sci. U.S.A.*, *ACS Nano*, and *Angewandte Chemie*. The three PhD students I co-supervised for almost their entire degree have received multiple awards (e.g., North America Membrane Society's student fellowship award and best oral presentation award in the fall meeting of the Swiss Chemical Society) and have now moved to stimulating positions (one as a SNSF postdoctoral fellow in a Nobel Laureate's lab [Prof. Sir Andre K. Geim], one as a co-founder of a membrane company, and one as a 2022 Schmidt Science Fellow).
